

**PETITION SUPPORTING
A State Procurement Technical Assistance Center**

We, the undersigned, support the creation of a Colorado **Procurement Technical Assistance Center (PTAC)** to benefit independent businesses across the state. We further endorse the efforts of **Institute for Civic Achievement (ICA)** in creating grassroots support by bringing together the resources and help of the public and private sectors to create this benefit to the Colorado economy.

We feel that a positive public expression of support for growing Colorado business will help build community development and pride, and can help all citizens reach their highest capacity for development and advancement. By signing, we give permission to have our support made public.
